

MP-LED DISTRICT DEVELOPMENT INITIATIVE • DMFT

Integrated Human Development Framework for *Mining-Affected* Communities

A convergence-driven portfolio for healthcare, education, women empowerment, digital inclusion, employability and rural public infrastructure — Jayashankar Bhupalpally District, Telangana.

PRESENTED TO

The District Collector
Jayashankar Bhupalpally

INITIATIVE SPONSOR

Hon'ble Member of Parliament
Strategic Leadership & Coordination

IMPLEMENTATION PARTNER

Give For Society
Programme Implementation & Technical Support

Development Challenges in Mining-Affected Communities

Jayashankar Bhupalpally contains several mining-affected mandals where rural and tribal communities continue to experience *persistent gaps* in access, infrastructure and opportunity.

SEVEN PRIORITY CONCERNS

- 01 Preventive healthcare access gaps in remote habitations
- 02 Menstrual hygiene & adolescent dignity challenges
- 03 Inadequate STEM & digital school infrastructure
- 04 Rural digital inequality & limited e-governance access
- 05 Youth unemployment & outward migration
- 06 Underutilized public & Gram Panchayat infrastructure
- 07 Limited future-skills exposure in tribal regions

Alignment with DMFT & PMKKKY Priorities

SECTOR	ALIGNMENT	REF	STRATEGIC FRAME
Healthcare	Preventive outreach & mobile screening	A1	
Education	Government school modernization	A2	
Women Empowerment	Menstrual hygiene & adolescent dignity	A3	
Digital Inclusion	Rural digital access & e-governance	A4	
Skill Development	Livelihood generation & employability	A5	
Community Infrastructure	Public asset revitalization	A6	A <i>convergence-based</i> approach to public infrastructure strengthening — aligned to PMKKKY guidelines and

Integrated District Development Portfolio

01 • WOMEN Sthree Swabhiman ESTIMATED BUDGET ₹2.52 Cr Menstrual hygiene & adolescent dignity	02 • HEALTH ArogyaSetu ESTIMATED BUDGET ₹2.32 Cr Mobile preventive healthcare	03 • EDUCATION Vidya Pragathi ESTIMATED BUDGET ₹6.61 Cr STEM & ZPHS infrastructure modernization	04 • DIGITAL Grama Vikas Kendras ESTIMATED BUDGET ₹3.67 Cr Rural digital community infrastructure	05 • SKILLS Rural Youth Employability ESTIMATED BUDGET ₹2.29 Cr Data, AI & workforce readiness
---	--	---	--	---

TOTAL ESTIMATED PORTFOLIO VALUE • FIVE INTEGRATED INITIATIVES	₹17.41 CRORES
---	---------------

An integrated ecosystem — not five isolated projects.

Menstrual Hygiene & Adolescent Dignity Initiative

To strengthen menstrual hygiene awareness, adolescent dignity systems and institutional sanitation ecosystems for girls in government and residential schools across mining-affected mandals.

KEY COMPONENTS

- Menstrual hygiene awareness
- Electric incinerators
- Girls dignity infrastructure
- Starter hygiene kits
- Toilet & WASH strengthening
- Institutional sanitation systems

STRATEGIC IMPACT

- Adolescent dignity & girls school retention
- Institutional hygiene strengthening
- Improved attendance & health outcomes

ESTIMATED BUDGET

₹2.52 CRORES

TARGET INSTITUTIONS

KGBVs

MJPTBCWREIS

TMREIS

Ashram & Tribal Welfare Schools

ZPHS Institutions

Mobile Preventive Healthcare Initiative

To extend preventive healthcare access across mining-affected rural and tribal communities through mobile screening, PHC-linked outreach circuits and telemedicine convergence.

KEY COMPONENTS

- Advanced Mobile Medical Screening Van
- Telemedicine & teleconsultation
- Preventive diagnostics
- Monthly PHC-linked camp circuits
- Women & adolescent health screening
- Rural health awareness systems

STRATEGIC IMPACT

- Healthcare access in underserved habitations
- Early detection & preventive screening
- Institutional & community health awareness

ESTIMATED BUDGET

₹2.32 CRORES

CONVERGENCE PARTNERS

District Medical & Health Office

Primary Health Centres (PHC)

Tribal Welfare Department

Telemedicine Network

Anganwadi & ASHA systems

[MOBILE MEDICAL VAN & PHC CAMP IMAGERY]

ZPHS STEM & Infrastructure Modernization

To modernize 25 government high schools through STEM laboratories, smart classrooms, sanitation systems and educational ecosystem strengthening — building district-level STEM readiness.

KEY COMPONENTS

- STEM laboratories
- Library modernization
- School furniture upgrades
- Smart classrooms
- WASH infrastructure
- Solar backup systems

STRATEGIC IMPACT

- STEM & digital learning readiness
- Government school modernization at scale
- Strengthened educational ecosystems

ESTIMATED BUDGET

₹6.61 CRORES

COVERAGE

25 ZPHS Schools

Mining-affected mandals

Government high schools only

Priority cluster rollout

[SMART CLASSROOM & STEM LAB IMAGERY]

Rural Digital Community Development Centres

To revitalize existing Gram Panchayat and public buildings into integrated rural digital learning, e-governance and community development hubs serving women, students and citizens.

KEY COMPONENTS

- GP building revitalization
- Digital learning labs
- Community learning systems
- Women empowerment spaces
- e-Governance access
- Telemedicine corner

STRATEGIC IMPACT

- Public infrastructure revitalization
- Digital inclusion & service access
- Community learning ecosystems

ESTIMATED BUDGET

₹3.67 CRORES

ASSET STRATEGY

Adaptive reuse of GP buildings

Strategic mandal-level hubs

Solar-backed continuity

Hub-and-spoke convergence

[GP BUILDING BEFORE/AFTER & COMMUNITY HUB IMAGERY]

Data, AI & Future-Skills Readiness for Rural Youth

To prepare 1,000 rural youth for the digital workforce through hybrid skilling, data & AI awareness, certification and placement readiness — leveraging the GVK ecosystem as delivery infrastructure.

KEY COMPONENTS

- LMS-based hybrid learning
- Data & AI awareness modules
- Certification support
- Digital literacy foundations
- Employability & soft skills
- Placement & career readiness

STRATEGIC IMPACT

- Workforce readiness for rural youth
- Women participation in digital economy
- Reduced outward migration pressure

ESTIMATED BUDGET

₹2.29 CRORES

PROGRAMME SCALE

1,000 Rural Youth (Direct)

GVK Hub-and-Spoke delivery

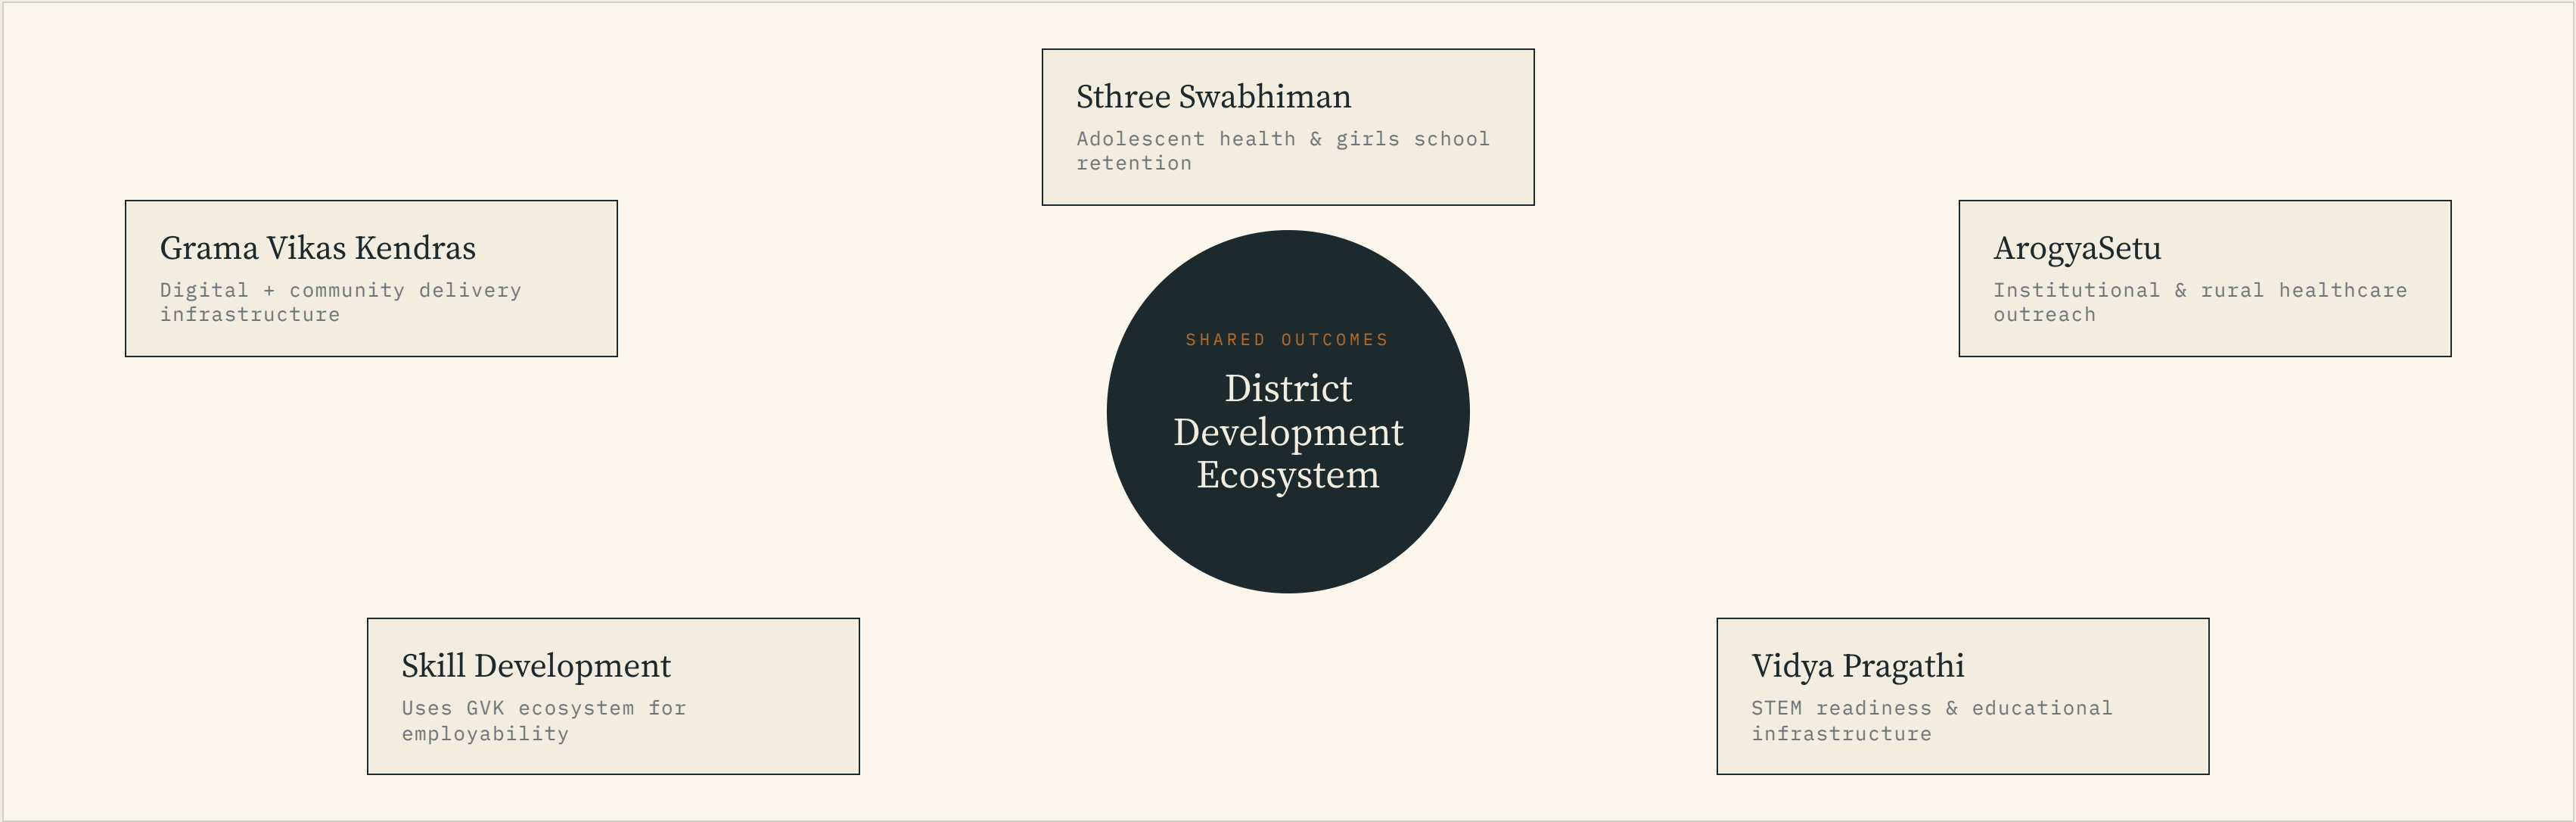

Tribal & women priority

Certification & placement track

[YOUTH DIGITAL TRAINING & PLACEMENT IMAGERY]

Integrated Convergence Ecosystem

SHARED INFRASTRUCTURE

GVKs host skilling, telemedicine & community learning under one roof.

SHARED OUTCOMES

Health, education & employability outcomes reinforce one another.

LONG-TERM SUSTAINABILITY

Low duplication, adaptive reuse & durable public assets.

Phased Geographic Rollout Strategy

PRIORITY GEOGRAPHY

Mining-affected mandals, tribal habitations and government institutional ecosystems.

SELECTION LENSES

- Mining-impact intensity
- Tribal & SC concentration
- PHC-linked outreach zones
- Rural GP infrastructure clusters
- Government institution density

APPROACH

Administratively feasible, fund-aligned and scalable from cluster to district.

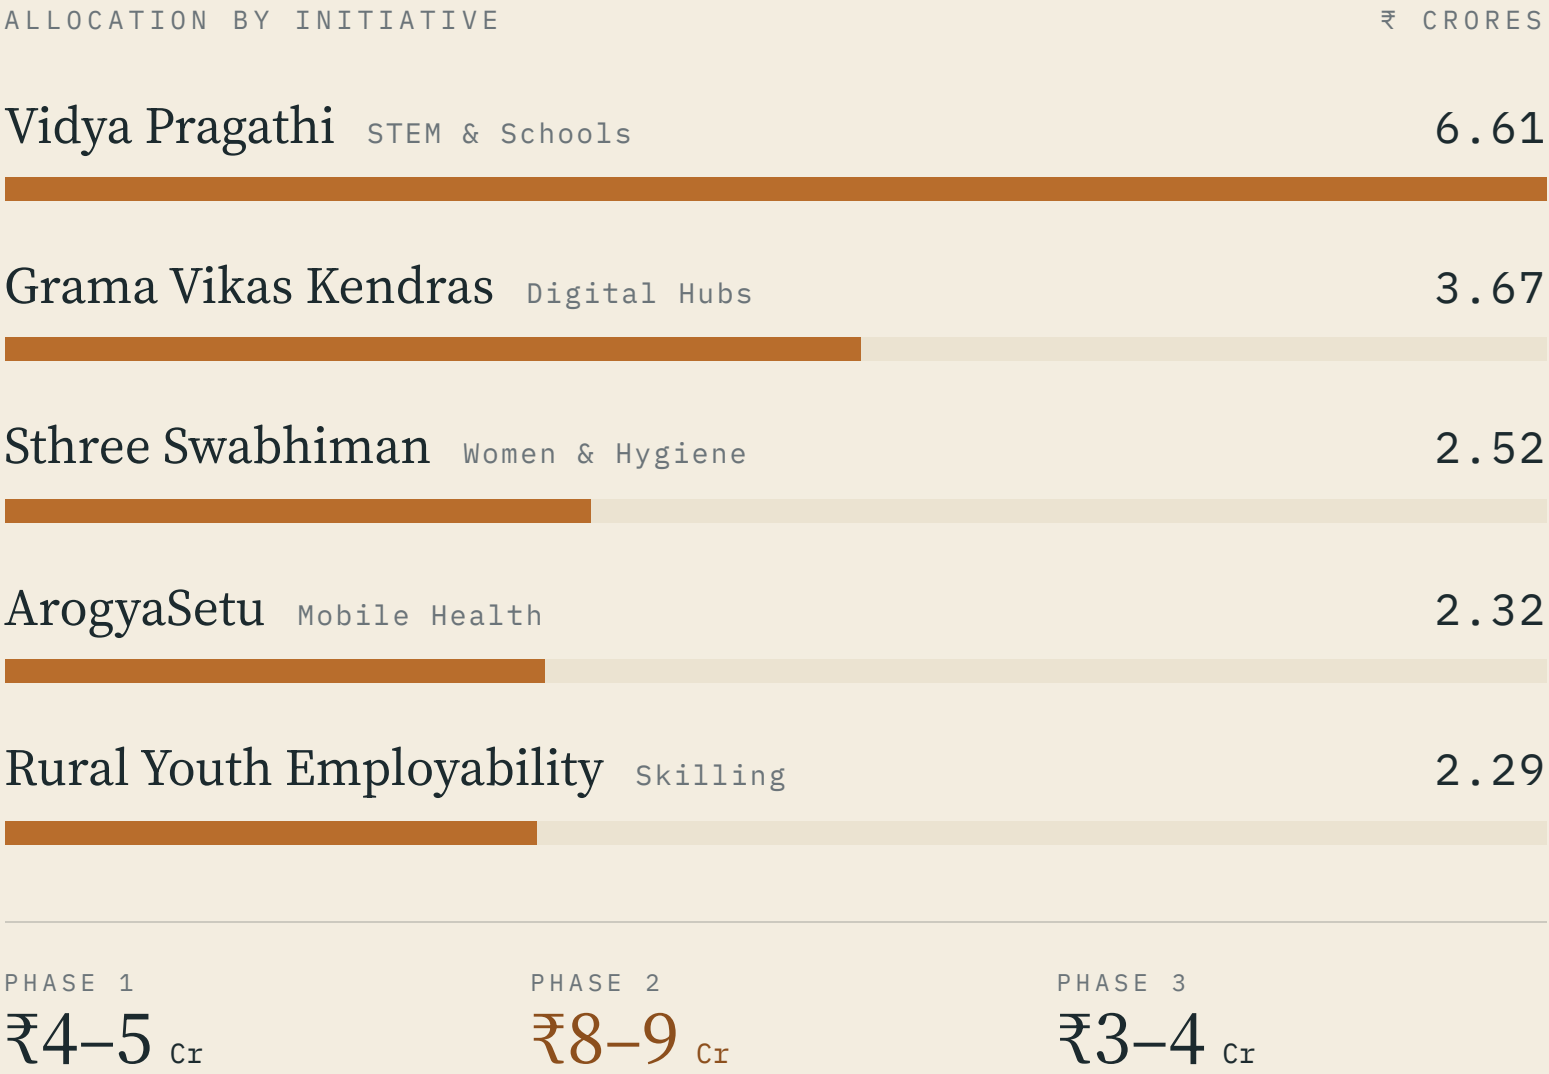

PHASE 01 I	Health & Women Initiatives Sthree Swabhiman + ArogyaSetu — early, fast-deploy outcomes in institutions and habitations.	INDICATIVE ₹4–5 Cr
PHASE 02 II	School & GVK Infrastructure Vidya Pragathi + GVKs — long-asset infrastructure forming the district backbone.	INDICATIVE ₹8–9 Cr
PHASE 03 III	Skill Development Expansion Activation of GVK hub-and-spoke for youth employability and certification.	INDICATIVE ₹3–4 Cr

Financial Portfolio Summary

TOTAL ESTIMATED PORTFOLIO

₹17.41 Cr

Five integrated initiatives, three phases, one district. A scalable, convergence-driven investment model aligned with DMFT & PMKKKY priorities.

Expected District-Level Outcomes

- 01

Girls & Adolescents

Improved menstrual hygiene systems, adolescent dignity support and school retention.
- 02

Students

STEM readiness, smart classrooms and digital learning access across 25 ZPHS.
- 03

Rural & Tribal Communities

Preventive healthcare outreach & institutional health awareness.
- 04

Rural Youth

Digital employability, certification and placement readiness.
- 05

Public Infrastructure

Revitalized Gram Panchayat assets and durable community infrastructure.

ESTIMATED DIRECT REACH

Students	25,000 ⁺
Rural & Tribal Communities	50,000 ⁺
Girls & Adolescents	10,000 ⁺
Community-Level Beneficiaries	25,000 ⁺
Rural Youth (Direct Skilling)	1,000 ⁺

Governance & Monitoring Framework

STAKEHOLDER	ROLE
Member of Parliament	Strategic leadership & district coordination
District Collector	Administrative oversight & convergence
DMFT Committee	Funding decisions & periodic review
Line Departments	Technical convergence & delivery
Give For Society	Programme implementation support
Institutional Stakeholders	Local coordination & ground delivery

MONITORING SYSTEMS

Accountable, convergence-based & data-driven district review.

- Project-wise MIS dashboards
- Beneficiary tracking systems
- Infrastructure utilization audits
- Financial monitoring & reporting
- Quarterly district review mechanism
- Outcome & impact reporting

Building a Future-Ready Development Ecosystem

From *mining impact* to *human development transformation* — a scalable, convergence-driven framework for the rural and tribal communities of Jayashankar Bhupalpally.
